GILL

WHAT'S YOUR WHY?

Because coaching is your passion. Because coaching changes lives. Because your athletes need to land safely. That's why Gill athletic equipment is set apart. We understand you need the freedom to focus on your athletes.

DOUBLE FRONT SYSTEMS

Available on G4, G6, and AGX M4. Call for Details.

SIDE CARABINER CONNECTION:
Top Pad is connected to base pads with carabiner side attachments, eliminating any obstruction on top of the pit. This exclusive attention to detail provides an obstruction-free landing area with athletes' safety in mind.

OPTIMAL PIT ENTRY ANGLE:
An ASTM approved vault box collar changes the slope of the tri-slant area when vaulting poles rotate. Gill's thoughtful pit entry design accounts for the box collar's effect by featuring a vaulter friendly angle.

12 YEAR WARRANTY

GILL LANDING SYSTEMS FEATURES*

Top Pads

EDGE-TO-EDGE TOP PAD: Aesthetic and functional design eliminates spike contact with base units and unevenness at the edge of the pit. This Gill exclusive feature will increase the life of your new pit and improve safety near the edges.

TUFMESH PLUS™ CASING: Using exclusive 17 x 11 1000 denier material increases the life of your top pad and stands up to repeated use better than any other landing system.

2" DURALIFE™ FOAM: Soft and durable foam creates confidence in every practice. Coaches can teach with assurance because of this industry leading design.

V-LOOP VINYL STRAP: Designed to evenly distribute the force from the athlete's landing, V-Loop straps eliminate tears compared to traditionally designed pits that put undue stress on the seams.

REVERSIBLE: Extend the life of your pit, Gill's top pads are designed to use either side safely and easily.

Vinyl Base Units

ALL-VINYL BASE: Exclusive to Gill landing systems, this unique design keeps water out of your pit better than traditional mesh top units. To extend the life of your pit you keep water out of the foam. Gill's all-vinyl design gets results.

COMPLETE INTERCHANGEABILITY: Reversible sections for maximum interchangeability. This adds years to the life of your pit by maximizing the usage and size of the athlete's landing area.

QUADRUPLE DURALIFE LAYER FOAM: Athletes need to know they are landing safely and comfortably. Gill's new QUADRUPLE Duralife foam is 25% softer than others yet with firmness necessary for the safest landings.

DUAL COATED VINYL: Evenly distributed 1000 x 1000 denier polyester fabric is bonded on both sides with 18oz knife-coated PVC vinyl. This exclusive fabric design eliminates vinyl delamination seen in other pits after years of use. This creates the most durable casing that is lighter than the other pits.

STITCHING: Gill's entire landing system is stitched with the industry's strongest 210 bonded polyester thread. Simply put, your new Gill pit comes triple stitched with the toughest thread in the industry to hold up to high volume practices.

GRIP STRIP FASTENING SYSTEM: A pit is safest when constructed as an integrated system. Gill's Grip Strip Fastening System will keep your base sections functioning as one unit season after season.

ECO-SMART COMPRESS PACKS: Gill Athletics cares about the environment and your budget. All landing systems are expertly packed and shipped utilizing Compress-Pack shipping, reducing freight volume lowering fuel consumption and shipping costs. Pits restore to original size and shape minutes after unpacking.

12 YEAR WARRANTY: A long-term warranty is only as dependable as the company standing behind it. And after 100 years, you can count on Gill to stand behind your landing system for years to come. If any failure occurs in the first 12 years, under normal use and care, we will repair or replace the damaged part. Essentials line includes 5 year warranty.

CUSTOM COLOR AND GRAPHICS: Choose from over 100 unique vinyl casing and top pad color combinations offered at NO EXTRA CHARGE! Select your vinyl casing (xx) and top pad (yy) color combination. Add distinction with multi-color graphics on the top pad, weather cover, or both.

THACA

ONE

1 YEAR WARRANTY

ON EVERY PACER POLE

QUICK SHIP

AVAILABLE FOR ALL PACER FIBERGLASS POLES

A full-line of vaulting poles designed for every vaulter, allowing smooth transition from pole to pole no matter the length, weight, or model. The ONLY vaulting pole with a 1 Year warranty.

From novice to elite, Pacer has you covered.

THE PACER® ADVANTAGE

The Pacer® ONE is a versatile, economical pole perfect for the beginning vaulter. Our design patterns create a "slow down" of the bend allowing more time to rotate into a vertical position. Available 9′ to 13′ in 10 lb increments, the Pacer ONE is sure to get your vaulters to the next level. 1 Year Warranty.

POLE BAG SIZING GUIDE

Not sure what size bag will fit your pole? Find our pole bag sizing guide here:

CUSTOM POLE BAG

- Customize for your school's personality!
- Holds at least five vaulting poles
- Heavy duty vinyl and leather reinforced ends for long life
- Made to fit 6" corrugated drain tube (not included)
- Use the two-digit number of your vinyl color selection (Page 10) to replace the XX in the item number

8008##CXX *10'-18' Custom Pole Bag* **$754**

ELITE POLE BAG

- Holds at least five vaulting poles
- Heavy duty vinyl and leather reinforced ends for long life
- Adjustable from 14' 6" to 17' 6"
- Made to fit 6" corrugated drain tube (not included)

800802 **$321**

ESSENTIALS™ POLE BAG

- Holds at least five vaulting poles
- Heavy duty polyester for long life
- Maximum length is 15'
- Made to fit 6" corrugated drain tube (not included)

800801 **$161**

**Use two-digit number of desired pole bag length to replace '##' in part number. 10'-18' lengths available.*

VAULT TRAINER SYSTEM

- Unique device for beginner and intermediate vaulters
- Allows athlete to acclimate the body to positions occurring during peak vault height
- Strengthens muscle groups for effective push off
- Helps to coordinate grip and pole positions while rotating around pole for push off

TA190 **$497**

PERFECT PLANT SLIDING VAULT BOX

- Sliding vault box allows vaulters to perfect the run, plant, and take-off
- Pole carriage, run mechanics, tempo, and step placement are more effectively learned using this training tool
- Tip proof design has a built in handle, a zero mark molded into the side for placement accuracy
- Constructed of a high-impact thermoplastic

2531 **$830**

INTERNATIONAL POLE CART

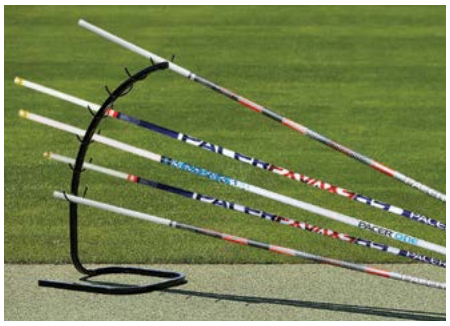
- Built to hold all the vaulting poles you own
- Made of sturdy steel with high end design
- Dual purposed wheels switch from swivel to locked position in a snap

733180	*Cart*	**$1800**
735	*Tow Bar Kit*	**$279**

CHALK STAND

- Store chalk during practice and competition
- Lightweight stand features a wide opening for hands, a pocket for extra chalk, and rungs for hanging accessories or resting vaulting poles

WE305	*Chalk Stand*	**$476**
700250	*1 lb Sports Chalk*	**$26**



PORTABLE POLE RACK

- Convenient way to store and protect your poles during meets and practice
- Free standing pole rack made of heavy duty steel with durable powder coat finish

725 **$404**

REPLACEMENT POLE VAULT WEIGHT LABEL

When ordering online you will receive an email requesting further information to complete this order

WT LABEL **$10.00**

POLE PROTECTOR SLEEVE

Slips on easily to provide maximum protection against damage caused by pole contact with the upper edges of the vault box.

700255 **$14**

POLE VAULT GRIP TAPE

- 12 ½ yard roll of colored adhesive tape
- 1 ½" width

700259	*White (15 yds)*	**$17**
700260	*Red*	**$17**
700261	*Maroon*	**$17**

HURDLES

CONTINUUM™

THE WORLD'S FASTEST HURDLE IS ALSO THE WORLD'S SAFEST

CONTINUUM™ AUTOMATIC HURDLES

The Continuum™ hurdle is designed to be the safest, fastest, and most unobtrusive hurdle that the rules will allow, all accomplished by placing the gateboard directly over the pivot point (tip-over-fulcrum).

- Internal leg weight from Continuum looping mechanism creates the most reliable, hassle-free automatic hurdle
- Robust C4 & C5 hurdle frames feature reinforced gusseted elbows for unparalleled strength
- Exclusive extrusion gatetubes allow for graphic customization C4 & C5 hurdles.
- C4 & C5 hurdles utilize a unique inner leg vertical height indicator for no-mistake height settings (30", 33", 36", 39", 42")
- Internalized weight mechanism of C4 & C5 hurdles creates whole-unit hurdle reducing maintenance and upkeep
- ***Meets NFHS, NCAA and World Athletics specifications***
- ***5 year warranty***

- Provides accurate measurements for both Long Jump and Triple Jump
- Leica Measuring Device reads both English and Metric units
- Constructed with a 6 meter aluminum rail and weighted steel bases
- ***Laser measuring device and other components may vary in appearance***

E73740 **$5140**

LASER DISTANCE MEASURING SYSTEM

- Accurate laser measuring device for throwing events
- Center the mounted laser after each attempt and aim at the target
- Accurate readings to the nearest ⅛"
- ***Fully compliant with NFHS, NCAA and World Athletics specifications***

E737 **$3000**

EVERYTHING YOU NEED IN ONE SIMPLE PACKAGE

ETHERLYNX VISION™ CAMERA PACKAGES BY LYNX

- **All packages contain everything you need.** Each package is a complete photofinish and timing solution for your track meets. All you add are the athletes and a computer!
- **All systems can run on any Windows computer** equipped with an Ethernet connection
- **All systems include the FinishLynx EASYALIGN™ technology** that shows a full-frame video view of the finish line for fast and accurate camera placement
- **All systems take full color pictures** for easier athlete identification
- **All systems use power-over-Ethernet,** so no dedicated AC power is required at the camera location. A single Ethernet cable transfers all data AND provides camera power
- **All packages include LYNXPAD Meet Management software** - this integrates with multiple online meet entry websites, including Athletic.net

** Lynx Packages only available across North America*

** FinishLynx Systems are licensed and cannot be returned.*

423	**$17**

PATENT NO. 1026677

HALO

HALO ELECTRONIC STARTER DEVICE

Introducing the next generation of starting devices—the patented Gill Athletics® HALO Electronic Starter Device! Unlike traditional starting pistols that require costly blanks, the HALO® is an electronic system that can connect wirelessly to the Wireless Speaker System and produce both the traditional bang sound as well as an audible tone. Connect to the Multiple Speaker System to disperse sound above the decibel standard equally across the starting line. ***Compatible with FinishLynx, Eagle Eye, and FlashTiming Systems***

E49710 **$347**

WIRELESS SPEAKER SYSTEM

The Wireless Starter System is the perfect companion to the HALO® Starting Device. Multiple Speaker System disperses sound above the decibel standard equally across the starting line.

- Includes wide-base tripod protective carrying case, rain cover, 12V battery & charging cable

E49720 **$2080**

OTE

OTE 90

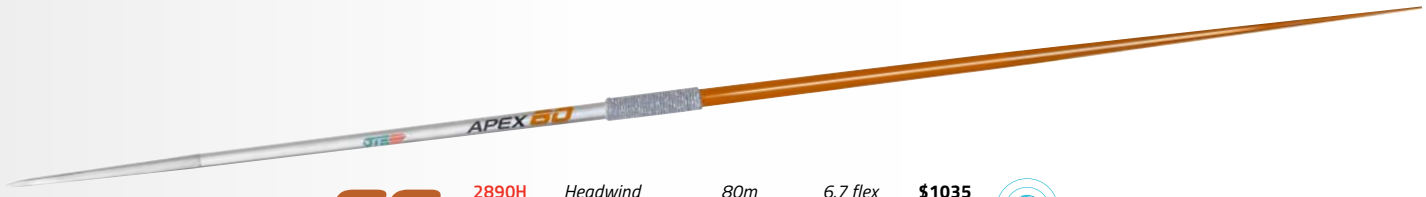
WORLD RECORD JAVELIN

Handcrafted in the USA, the OTE 90 Competition is the same javelin Jan Železný threw to achieve his 98.48m world record back in 1996 – a record that still stands today. Invented and perfected by Dick Held, the OTE 90 now sports a nostalgic look in honor of that legendary throw.

2885H	Headwind	90m	6.3 flex	$1245
2885T	Tailwind	90m	6.3 flex	$1245

APEX

The OTE Apex series was developed by Dick Held alongside the 90m javelin using the same principles. Perfect for the intermediate athlete who wants a softer feel during the throw while developing a cleaner release. The Apex series allows for more forgiveness and protection from injury.



80

2890H	Headwind	80m	6.7 flex	$1035
2890T	Tailwind	80m	6.7 flex	$1035

CHOOSE YOUR JAVELIN

Use this chart for help on how to choose the best javelin.

ABILITY	*BEGINNER* →	*ADVANCED*
DISTANCE	*<30M* →	*>80M*
FLEX	*12.6 (SOFT)* →	*4.4 (STIFF)*
RATING	*HIGH FLEX LOW DIST.*	*LOW FLEX HIGH DIST.*

STEP 1:

SELECT JAVELIN WEIGHT

600g women's, 800g men's, or rubber tipped javelin.

STEP 2:

CONSIDER ATHLETE ABILITY

BEGINNER: Consider a "softer" more forgiving rated javelin like Tru-Flight.
EXPERIENCED: Consider a "medium" stiffness that suits throwing style.
ADVANCED: Consider a "stiffer" less forgiving javelin that maximizes distance.

50

2684H	*Universal*	*50m*	*7.2 flex*	**$675**	

HEADWIND (H) A headwind version of an OTE javelin describes a streamlined tip designed to help cut through the wind. This javelin tip, because of its small surface area, will have self-correcting characteristics when a thrower misses the point, adding valuable distance to a missed throw. The headwind version is ideal for 'power' throwers who lack perfect technique but make up for it with strength and torque.

TAILWIND (T) A tailwind version of an OTE javelin describes a thicker, more blunted tip that increases the surface area in front of the javelin. When a thrower hits the point with a tailwind version of an OTE javelin, it will mimic the old rules style javelins, with a beautiful floating flight and greater distances. This tailwind version is ideal for 'finesse' throwers who lack high outputs of power, yet throw at a high technical level.

MAX BELT

The Max Belt allows movement through a circuit of compatible training aids without the hassle of having to change belts. Outfit your athletes with a Max Belt and they can move from station to station with a simple snap-lock into the training equipment being used.

TA36501	*S/M 24"-33" Waist*	**$37**
TA36502	*L/XL 34"-42" Waist*	**$37**

VARIABLE RESISTANCE CHUTE

- VR chute with hook and loop closure baffle panel that can be opened for reduced resistance or closed for increased resistance
- Medium chute opens to 48", XL chute opens to 54"
- Includes Max Belt

TA163M	*Medium Chute+S/M Max Belt*	**$84**
TA263M	*Medium Chute+L/XL Max Belt*	**$84**
TA163XL	*XL Chute+S/M Max Belt*	**$84**
TA263XL	*XL Chute+L/XL Max Belt*	**$84**

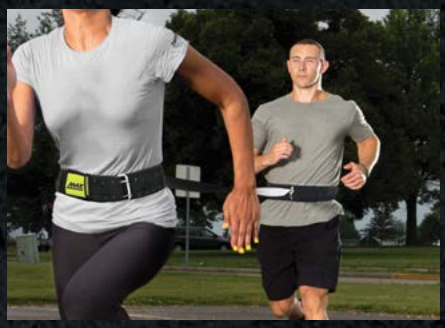
SLINGSHOT PRO

- Build explosive starts, quicker lateral movement, and stronger jumps
- Condition the body to overcome added resistance
- Train to recruit and fire more muscle fibers so you can blast out of the blocks with power and speed
- Includes Max Belt

TA36701	*with S/M Max Belt*	**$103**
TA36702	*with L/XL Max Belt*	**$103**

POWERMAX

PRODUCT COLORS MAY VARY FROM WHAT IS SHOWN



DUAL RESISTANCE TETHER

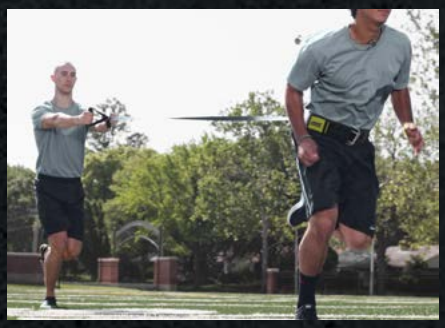
- One athlete runs while the other provides resistance
- Includes Max Belts

TA1521	*with 2 S/M Max Belts*	**$76**
TA2521	*with 2 L/XL Max Belts*	**$76**
TA3521	*with 1 S/M & L/XL Max Belt*	**$76**

TIRE TETHER

- Used to drag tires of different sizes for varied workouts
- Includes nylon strap and hardware to attach tire, 3" wide hook & loop closure belt adjustable to 42" waist, and carry bag. Tire not included.
- Includes Max Belt

TA1384	*with S/M Max Belt*	**$88**
TA2384	*with L/XL Max Belt*	**$88**



RESISTANCE TETHER

- Improve speed with resistance running
- Harness attaches to 10' nylon web cord with handle
- Includes Max Belt

TA150	*with S/M Max Belt*	**$72**
TA250	*with L/XL Max Belt*	**$72**

DUAL SPEED TRAINER

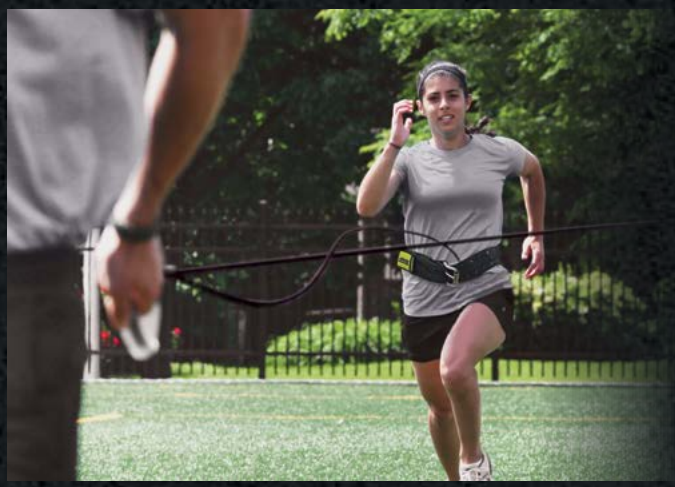
- Two person assisted overspeed and resistance running kit
- Overspeed training provided to the rear athlete increases stride length and frequency
- 20' latex tubing can be stretched to twice its length
- Includes Max Belts

TA164	*Medium tubing w/ 2 S/M Max Belts*	**$201**
TA264	*Medium tubing w/ 2 L/XL Max Belts*	**$201**
TA265	*Medium tubing w/ 1 S/M & 1 L/XL Max Belt*	**$201**
TA165	*Heavy tubing w/2 S/M Max Belts*	**$210**
TA266	*Heavy tubing w/ 2 L/XL Max Belts*	**$210**
TA267	*Heavy tubing w/ 1 S/M & 1 L/XL Max Belt*	**$210**

DYNAMIC TRAINER

- Keeps resistance around the hips or torso
- 10' elastic tube is covered with nylon webbing, can stretch up to 30'
- Includes Max Belt

TA158	*with S/M Max Belt*	**$224**
TA258	*with L/XL Max Belt*	**$224**



OVERSPEED PULLEY

- Built for true overspeed training
- Athletes are towed 5-7% faster than their top speed and must give maximum effort to unlock real gains
- Maintain clean sprint mechanics, avoid overstriding, and the system will automatically release when the athletes slows or stops
- Includes Max Belts

TA36801	*with 2 S/M Max Belts*	**$156**
TA36802	*with 2 L/XL Max Belts*	**$156**
TA36803	*with 1 S/M Maxbelt & 1 L/XL MaxBelt*	**$156**

TRAINING
SPEED DEVELOPMENT

POWERMAX SLED

- Provides lower body resistance that develops speed and strength for athletes in all sports
- Add weight to determine resistance; 15" tall post fits 4 Olympic bumper plates and carries up to 200 lbs
- Includes Max Belt

TA154	*with S/M Max Belt*	**$301**
TA254	*with L/XL Max Belt*	**$301**
TA156	*with Shoulder Harness*	**$312**

SPRINT START SLED

- Unique design provides for clearance over and around virtually all starting blocks
- Olympic style weight plates may be added to increase resistance
- Designed by University of Idaho head coach Tim Cawley
- Includes Max Belt

TA1541	*with S/M Max Belt*	**$584**
TA2541	*with L/XL Max Belt*	**$584**

FLYWEIGHT SPEED SLED

- Ideal for adding incremental resistance to your athletes
- Weighs less than 7 lbs
- Includes Max Belt

TA157	*with S/M Max Belt*	**$210**
TA257	*with L/XL Max Belt*	**$210**

PUSH/PULL SLED

- Great for versatility in speed training
- USA-made 11 gauge steel frame with adjustable width push posts (12-21" W x 32" H) and multiple push/pull options
- Space saving design is less than 7" high when folded and quick release pins allow for quick setup & breakdown
- Replaceable/removeable runners for use on a variety of surfaces
- Sled weighs 45 lbs and can hold up to 300 lbs (fits four 45 lb bumper plates)
- Sled comes with shoulder harness and leads

TA155 **$850**

BROWER TC-TIMER SYSTEM

For over 40 years, elite coaches have trusted Brower Timing Systems for precise, effortless timing. The TCi Timing System lets you focus on unlocking athlete potential, not on managing tech. With the motion-sensing Smart Start, athletes simply enter their ID number before each sprint, and the handheld Timer delivers instant and organized results.

- Dedicated long range Timer, no phone needed
  - Optional smartphone connectivity; pairs with the TCi Timer for deeper data analysis. Create start lists, sort results and export timing data to a spreadsheet.
- Accurate to 1/1000th of a second (0.001)
- Magnetic photogate attachment for instant setup
- Proven reliability and daily use durability
- Photogates can be used for a start, split or finish beam. Also has start-in-beam mode
- Designed and manufactured in the USA
- System includes: TCi- Timer, TCi- PhotoGate with Tripods (42″) + Turbo Magnetic Mounts, TCi- Smart Start and Carry Case

E38720	*Timer System*	**$1450**
E38720S	*Timer System w/ Smartphone Interface*	**$1950**

FACILITIES

SAND PIT FORMS & COVERS

Sand pit forms hold more than just sand, they hold value. With four different options of Sand Catcher locations and two practical Sand Catcher Cover options, you can design the horizontal jump facility that will perfectly meet your needs.

No matter which combination you choose; with the Gill Functional-Form, you can rest assured it's the finest product (with the easiest installation) available.

Choose from one of two Sand Catcher Cover systems: traditional grate and mat or Gill (exclusive) Recessed Lid. When you consider the main function of a Sand Catcher system is not to catch sand but to store it, the Recessed Lid system is rapidly becoming the choice of facilities worldwide, as it is designed to receive track surfacing to match your track facility. When coupled with the 730148 Aluminum Sand Pit Cover, a complete logical design emerges for your world class jumps facility.

Choose from one of four sand catcher locations: no sides, two sides, two sides and back, or all four sides. Choosing Sand Catchers on the sides will cut unnecessary costs and eliminate potential trip hazards, providing more than ample storage space for overflow sand.

FORM WITH RECESSED CATCHERS

4 SIDES	25′ L	F46225 **$27575**

VERSACOM BOXES

CONNECTING IT ALL TOGETHER

The VersaCom Box provides a junction for electricity and cable hookups. This box can be put in virtually any location around performance areas of varying surfaces. The open bottom of the VersaCom Box provides adequate drainage and conduit entry, while the hand holes in the cover allow easy access.

- Divider plates in full size version, provided to help keep electrical equipment segregated
- Main box structure is made of $^1/_4$" thick folded aluminum
- Lid is constructed of $^1/_4$" aluminum plates for maximum support and durability

The VersaCom Box - Synthetic Version allows material to be bonded or poured onto the top of the lid to match the surrounding surface.

The VersaCom Box - Turf Version features a supplied aluminum top to allow artificial turf to be glued on the jobsite, and is tethered to the box. This top is reinforced with multiple aluminum plates for maximum strength and durability. Factory installed turf infill retainment brushes keep infill out of the box.

FUNCTIONAL-FORM STEEPLECHASE WATER JUMP SYSTEMS

Gill Athletics has greatly simplified the installation of steeplechase water jump reservoirs with these Functional-Form systems. With the Functional-Form, installation precision is ensured to meet NFHS, NCAA and World Athletics specifications.

Structure is fabricated of specially folded ⅛" aluminum to maximize strength and includes designed inner wall supports that allow the concrete to flow through and set evenly.

- F600: Compatible with 740144 water jump barrier
- F610: Compatible with 740134 water jump barrier
- Both models compatible with 730146 aluminum water jump cover
- Both models come standard with valve option: installed front wall valve to be connected with an outgoing pipe to the drain source
- ***Meets NFHS, NCAA and World Athletics specifications***

F600	*Surface Mount Form*	**$10220**
F610	*Ground Sleeve Form*	**$10220**

STEEPLECHASE WATER JUMP BARRIERS

- Barrier beam is 4" x 4" square steel tubing with synthetic track material
- Pull pin design makes barrier height change a snap
- Welded gusset adds needed strength support to the beam
- Adjustable to three heights: 30", 33", 36"
- Aluminum water jump barrier seal available
- ***Meets NFHS, NCAA and World Athletics specifications***
- ***Surface mount barrier is World Athletics certified***
- ***5 Year Limited Warranty***

740134	*Water Jump Barrier with Ground Sleeves*	**$3970**
740144	*Water Jump Barrier with Surface Mount*	**$4625**

ALUMINUM WATER JUMP BARRIER SEALS

- Aluminum water jump barrier seal
- Add vinyl decal graphic; max size 16" tall x 90" wide
- ***5 Year Limited Warranty***

730150CXX	*Aluminum Barrier Seal*	**$2275**
730150CXXSP	*Aluminum Barrier Seal w/ Graphics*	**$2730**

MESH WATER JUMP BARRIER SEALS

- Add design to your steeplechase water jump
- Lightweight design will ease water barrier height change

740145204SP	*White Mesh with Graphics*	**$870**

FACILITIES
RAISED RUNWAYS

In the past, these types of runway systems have been priced upwards to $75k! You can now have this product at a fraction of that price. The Gill Raised Runway allows for the flexibility to design runways that will accommodate the pole vault, long jump and triple jump for all levels of competition and practice.

The basic unit is an 8' x 4' general runway section. Specialized sections incorporate a vault box or take-off board trays and blanking lids. The construction of each section is welded aluminum, with ½" plywood decking. Track surfacing is not included, so you can have your preference on surfacing.

Adjunct products for the Raised Runway include the Soft Shell Sand Pit Form for the long and triple jump (sand not included), and a pole vault pit elevating system.

SINCE 1918

GILL® ATHLETICS

In 1921 hall of fame athlete-turned-coach Harry L. Gill helped organize the first NCAA Track & Field Championship event. His team entered and won that inaugural national title. We are proud to honor Harry Gill's legacy and vision for the sport through Gill Athletics' role as the official equipment supplier of the NCAA Track & Field Championships.
